PLAYER DEVELOPMENT CENTRE
BRACKLEY TOWN FC IN THE COMMUNITY

Our community coaches have been working very hard this first part of the school year. BTFC In The Community is an area of our football club that has grown hugely in the last five years. This year we have extended our School Club offering and we now have a presence in 12 primary schools locally. This can range from lunchtime clubs, after school clubs and football themed PE lessons.

Our Home Education football sessions on a Wednesday morning 9.30-10.30 have really taken off this year. The numbers of children attending has grown and we are seeing more children that are home schooled attend every week. This is a great programme that gives children who sometimes wont see other children the opportunity to mix and take part in physical activity.

Part of our programme that has recently launched is our Mentoring programme. This is a new initiative that is supported by The National League.

The role of a mentor is vast and can cover many different areas in a primary school. One thing that we see regularly is the lack of male teachers in this environment. Our mentor is currently working in a local primary school and spending time with the children.

We are currently focusing our time with children who dont necessarily have a male role model in their lives.

This role of the mentor can simply be spending time with a child reading, playing games or talking about their week and what they are doing in and out of school.

This initiative will continue to grow with the help of the National League and wider football community.
